REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Jaffrey:

I herewith submit to you my fourth annual report, the thirteenth under district supervision.

For the past three years the enrollment of the Conant High School has shown a steady increase. During the school year 1918-19 the high school had a total enrollment of 53 which dropped to 43 before the close of the spring term. The enrollment for 1919-1920 was 57 with an average membership of 51. For 1920-21 the enrollment showed an increase of 11, the total being 68 with an average membership of 63. The enrollment for the present year is 76 with an average membership of 75. A total increase of 32 pupils in three years certainly is occasion for encouragement, and the fact that several students each year are admitted to college on certificate of the high school, and the fact that the ranks sent back from the colleges indicating the high rank these students are taking in the several institutions indicates the standing of the high school. The report of the High School Inspector also shows that the State Department appreciates the earnest and effective work that is being done in this school.

Prin. Walter L. Mason, who had been headmaster for the past two years, Miss Jennie L. Bond and Miss Lela E. Osgerby of the high school teaching force, all declined their re-elections and we were confronted by a task of considerable size in filling these vacancies.

For head-master no less than sixty applications were filed, but upon following up the references very

few of the applicants appeared to be of the caliber required for this important position. At the request of the school board the superintendent visited the conference at Castine, Me., where he had an opportunity to meet a number of candidates who had written. None of these met our expectations, but while there I was presented to a young man who had met with notable success during the past three years. He had not applied and was not a candidate for the position, but finally decided to accept the place.

Mr. E. B. Marriner, who succeeds Mr. Mason, is a graduate of Colby and has had three years' experience as a high school principal, the last two years at Rangeley, Maine. During the half year that he has been in charge of the high school he has shown himself to be a thorough teacher, an able executive and a citizen who would command respect in any community.

Mr. James P. Carroll succeds Miss Bond as teacher of French and Latin, and Miss Williams succeeds Miss Osgerby as teacher of English. Both of these teachers are well trained and have been doing good work.

In the grades and rural schools eight out of twelve teachers are new. Out of the eight teachers leaving their positions last June all but one were normal or training school graduates. It was impossible to secure teachers of equal training to fill their places although we were able to secure some with successful experience.

The sixth grade seems to have the greatest difficulty in securing and retaining a suitable teacher. The first teacher disregarded her contract after six weeks of teaching and left without notice. After using a substitute for two weeks we were fortunate in securing Miss Florence M. Murphy for the position which she held until January when she was transferred to the B divisions of grades V-VI and VII, a position that was not opened during the first term although both the sixth and seventh grades were overcrowded, because we could not find a teacher adapted to the individual work required in these divisions.

We have had two excellent substitutes sent from the Normal School at Keene, and I believe that in spite of the changes necessitated in this grade better work is

being done than would have been the case had the first teacher remained throughout the year.

In the rural school No. 4 Miss Belcher is serving her second year. While this school is small and confined to the first six grades the individual interest shown in the pupils has made this school helpful and attractive and a genuine community center has been developed.

In district No. 9 Miss Alice Lehtinen, a graduate of Conant High School who has had experience as a substitute and who attended the summer session at Boston University in 1921, has been placed in charge.

The work done in this school has shown a great improvement over last year.

Miss Hiller has continued her effective work as school nurse. A tabulation of her work in the several rooms is submitted with this report.

Thanksgiving week it was voted by the school board to close the schools for two weeks on account of several cases of Scarlet Fever. The rooms were fumigated and upon reopening Drs. Hatch and Sweeney as well as Miss Hiller gave careful examinations of the pupils and sent out all suspicious cases. Since that time other cases have appeared but, fortunately,all cases have been light.

Miss Grimes of Peterboro has continued her work as supervisor of music for the third year. Those who have seen the schools try to do without a supervisor of music must be convinced that the small amount required for special instruction in music is well spent.

Transportation continues to be a growing problem in this district.

Last spring one small route was opened on the Rindge road, and during the summer vacation the parents of District No. 4 requested the school board to transport the pupils above the sixth grade from that section to the Conant building, grades seven and eight.

This request was granted in spite of the fact that there is no chance for reimbursement from the State since there is a school open in that section. Despite the claims of certain individuals and organizations that sometime and somewhere rural schools could fit pupils

for the high school as well as the village grades, no one realizes better than the residents of our rural sections that the cost of equipment and teachers to do this work would be prohibitive even if the classes were not too small for effective work. The work of the first six grades can be carried on very well in these smaller schools, but those who care to have their children receive a high school education desire them to have the same school advantages as the pupils living in the village and thus prefer to have them attend our seventh and eighth grades.

The attendance at the evening school has been about the same as last year. In addition to the certificates outstanding a year ago requiring illiterates between the age of 16 and 21 to attend evening school seven new certificates requiring such attendance have been issued. Four holding such certificates have, since October 1st, passed their examination in reading and are no longer required to attend.

A number who have completed the work in the grades have taken advantage of the opportunities offered for work in the commercial department.

In the matter of finances Jaffrey was one of the towns heavily cut by the legislation of 1921. During the school year 1920-21 the state aid amounted to $8,117.45. The amendment to the law of 1919 limited the amount that any town might receive to $6,000 and it was hoped that we might receive this amount. Had we been able to retain our elementary teachers of last year or to have secured others of the same training this amount would have been awarded, but only a few normal teachers were available, so we were obliged to secure teachers with partial normal courses or summer school courses with some experience. As a result our financial rating is lower than last year and our award is but $4,565.37 for the present year.

The normal schools will graduate this year a considerably larger number than last year and the year before, and as vacancies occur I feel that we should insist, as far as possible, on securing full normal graduates, and that we should require teachers with only a partial course and little experience to attend summer sessions

until their rating is satisfactory to the State Board of Education.

During 1921 the State Board of Education recommended a program of studies for the elementary schools. This program was devised especially for the school districts maintaining organized junior high schools. The program plainly states that for each district the local course of study is determined by the local school board and superintendent.

A number of cities and towns in the state are following the organized junior high school plan but a far larger number of districts are not yet ready to follow this program in detail. No attempt has been made to organize the schools of this district on the full junior high school plan. Our seventh and eighth grades offer French, elementary science, Domestis Arts and English in accordance with this plan, but it has not been considered advisable to ask for an appropriation necessary to install manual training in those grades.

We also feel that a large majority of our pupils should continue work in geography, arithmetic and grammar through the seventh and eighth grades, and for this reason a program somewhat between the old program and the 1921 program is being followed.

In order that interested parents and citizens may have the opportunity of becoming acquainted with our course of study I suggest that a printed course of study be prepared so that copies may be available for all who are interested. This has been done recently in Fitzwilliam where an organized junior high school is carried on, but where local conditions make a slight departure from the State program advisable.

As above suggested, the awarding of only $4,500 by the State in the matter of state aid, and the opening of the transportation route from District No. 4, as well as the necessity of putting on a larger conveyance on the Sirois route makes it necessary to ask for about $2,500 as a deficiency appropriation to carry through the work of the year. The appropriations for the next school year must be made on the estimate that the state aid will not vary materially from that granted the present year, since the awards to the districts qualifying in group A are to be the same next year as this year.

I believe that the present outlook is encouraging. While it has been something of a task for so many new teachers to adjust themselves to the work under new conditions, I find that the teachers, almost without exception, have welcomed suggestions and have faithfully endeavored to carry on their work for the best interest of the school. It is in many ways fortunate that these many changes came about this year instead of last year and two years ago, since the work has been so well organized and developed that it has not been difficult to take up the work where it has been left.

Thanking citizens, teachers, pupils and members of the school board for the cordial support given me in my work, I am

Very truly yours,

LEWIS S. RECORD,
Superintendent of Schools.
